2014 Sewer Manhole
Air Sampling Data

MEW Superfund Studay Area
Mountain View, CA

Date: 12/9/2014

Analyst: STATMAN-WEIL

- Sewer Main
- Abandoned Sewer Line
- Abandoned Sewer Structure
- Sewer Manhole

TCE Detections in Manhole Air Samples*

- TCE not detected
- >ND - 100 $\mu\text{g}/\text{m}^3$
- >100 - 500 $\mu\text{g}/\text{m}^3$
- >500 - 1000 $\mu\text{g}/\text{m}^3$
- >1000 $\mu\text{g}/\text{m}^3$

Notes: ND - non-detect J - value is estimated

*TCE sampling data obtained from select manholes from January through May 2014. Maximum TCE values are shown for manholes at which multiple samples were obtained. Manhole samples labeled by Sewer Manhole number (TCE concentration $\mu\text{g}/\text{m}^3$).

**The City of Mountain View GIS data labels two manholes as F5-064, therefore it is unclear at which location TCE sampling data is associated.

Sources: 2010 aerial imagery from ESRI Imagery Basemaps. MEW Local Study Area expanded boundary is approximate and based on Figure 2-1 in the Sept. 2009 Final Second 5-Year Review. Sewer features provided by the City of Mountain View in May 2013 and January 2014. Manhole sampling data from EPA, dated February through May 2014.
